Their quarrel is not with the Republican party, but with the theory of Democracy. Readers of Darwin's *Life* will remember his confession that he had lost all taste for [The house of seven gables by Nathaniel Hawthorne](#) music, art, and literature; that he "could not endure to read a line of poetry" and found Shakespeare "so intolerably dull that it nauseated" him; and finally, that his mind seemed "to have become a kind of machine for grinding general laws out of a large collection of facts." Despite this warning as to the limits of science, we have no lack of instances of scientific men posing as authorities on subjects on which they had no real right to be heard, and, what is worse, being accepted as such by the uninstructed crowd. I replied in such language as I had with me, but it seemed to be equally lost upon him. "I suspect rather that their properties depend on some phenomenon of arrangement." Now, if there be a law behind the phenomena made clear to us by Mendelian experiments (as Mendelians are never tired of asserting), then it becomes in no way impertinent to ask how that law came into existence, and who formulated it. Frequently, however (as you know), after sitting for hours with your mind plumb stalled, it is not until shortly before your bed time that that eccentric engine, your brain, gets buzzed up. Let the cross, the sword, and the arena answer, whether the world, that then was, so understood its first preachers and apostles. In the loom of time, though the woof be divinely foreordained, yet man supplies the weft, and the figures of the endless web are shaped and colored by our own wisdom or folly.
